Appraisal Company #2			

Self-manage, Outsource or Both

Connexions' OPEN platform empowers you to self-manage the appraisal process, outsource to multiple vendors, or toggle between the two – all at a moment's notice. One technology ensures that all of your appraisals stay on track, regardless of how they're transacted.

Access All Appraisal Vendors

Connexions' OPEN platform gives lenders centralized access to all appraisal vendors nationwide. You have the freedom to work with any AMC, any appraiser and any appraisal company you want - no matter what platform they're on.

Customizable Assignment Engine with GeoPoint Competency

Connexions' fully configurable assignment engine allows you to ensure that all files are assigned to a competent and qualified vendor. You control distribution volumes and even the appraiser's GeoPoint Competency down to 1 mile radius.

Simply configure your parameters, apply it to any level of your company hierarchy and Connexions automatically does the rest.

Compliant and Bank Secured

Connexions helps ensure 100% compliance to Dodd-Frank, HUD, AIR, HVCC, TILA and RESPA by giving you a centralized platform all parties can transact business on according to your rules. You control and monitor all activity while Connexions tracks every file allowing you to easily prove compliance to regulators and auditors.

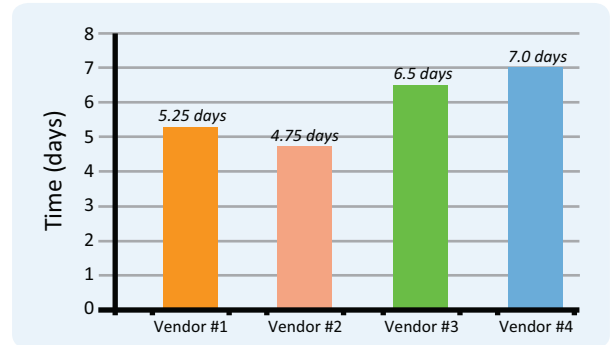

Connexions passes any banks security protocols:

- ✓ PCI Compliant
- ✓ 128-bit SSL
- ✓ SAS-70 Type II
- ✓ ISO 9000
- ✓ Safe Harbor Certified

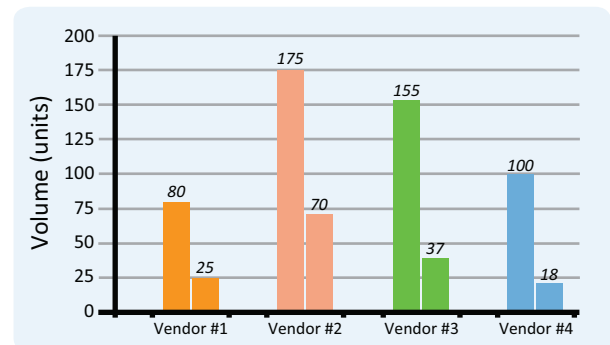

Real-time Performance Statistics

Connexions' on-demand reporting tools keep you in the know. Compare turnaround times, conditions, and volume between vendors with system standard reports, or export data into your favorite reporting software.

Compare Average Turnaround Times

Compare Conditions (sent/conditions)

Open and No Cost Integration

Connexions is a completely OPEN platform, so we won't hold you hostage to any expensive costs or long-term contracts. All you pay is one flat transaction fee per appraisal - always on a month-to-month basis.

- ✓ No cost to integrate
- ✓ No long-term contracts
- ✓ No monthly minimums
- ✓ No additional fees for add-ons
- ✓ No upload or download fees
