

## **InHouseUSA is Top 100 Most Innovative Company**

**Jacksonville, FL – March 17, 2017** – InHouseUSA receives the [2017 HousingWire Tech 100](#) award, honouring most innovative companies in the real estate and mortgage industries in the United States.

Four years ago, HousingWire created the Tech100 around the concept of technological innovation, to recognize the increasingly important role of technology in the mortgage space. “The companies that make up the 2017 HW TECH100™ are the cream of the crop of the entire housing industry, from real estate to mortgage lending, servicing, and investment,” said HousingWire Senior Financial Reporter Ben Lane. “These companies aren’t just taking part in the housing industry’s technological revolution; they’re leading it.”

“We first received this honour in 2015, and once again, InHouseUSA is a proud recipient of the 2017 HW Tech100 award. Technology is at the core of our business and any advancement to our platform is in the objective to bring value to our clients, partners, and the industry overall,” says Tom McCormick, President of InHouseUSA.
